Portable Encapsulator™ Bloc Trap

Accommodates rounds with minimum velocities of 600 FPS up to a maximum of .308/7.62mm and also defeats US Army 5.56 M1855 Green Tip. Encapsulator™ system features 3/8 inch AR500 Steel back plate with 2 inch Dura-Panel™ covering and Dura-Blocs™. The proprietary compression system holds the Dura-Blocs™ in place and allows them to be rotated from high volume areas to extend life-cycle. The tubular steel base features heavy-duty locking casters for mobility and four side handles assist with maneuvering the trap into location. Shooting surface area is 24" w x 45" h.
#60_21_004 Wt. 740 lbs. Dims: 79" h x 28" w x 26" d

Portable Encapsulator™ Bloc Trap with 3-Sided Shield

Provides all the capabilities and features of the standard Portable Encapsulator™ Bloc Trap with the addition of Dura-Panel™ ballistic rubber shields on front and sides of bullet trap frame and base.
#60_21_056 Wt: 1,056 lbs.

Portable Encapsulator™ Full Frontal Shield

Dura-Panel™ ballistic rubber shields front of base and casters from errant shots. Full Frontal Shield can be added to Portable, 2.5D, or Mini Portable Encapsulator™ bullet traps. Must be specified at time of order:
#60_21_057 Wt. 146 lbs.
