

## ▶ Portable Bullet Traps

**Portable Tactical Trap** Constructed of AR500 steel back plate with 2" ballistic steel edges and faced with 2" thick Dura-Panel™ ballistic rubber surface. The trap features a LOK-TITE™ mounting system which allows it to be securely fastened to a stand or wall-mounted. Simply hook the back of trap to the stand or on the wall-mount using the LOK-TITE™ system – no other assembly is required. Provides a 24" w x 36" h shooting area with the lower edge of the shooting surface 34" off the floor when stand-mounted. H-Stand base is 30-3/8" W x 30" D. Overall unit height of trap on stand is 70-1/4".

**3/8" AR500 Portable Tactical Trap on H-Stand.**
