

Portable Tactical Trap

The Tactical Trap is constructed of AR500 steel back plate with 2 inch wide ballistic steel edges and faced with 2 inch thick Dura-Panel™ ballistic rubber surface. The trap features a LOK-TITE™ mounting system which allows it to be securely fastened to a stand or wall-mounted. For easy set-up, simply hook the back of trap to the stand or to the wall-mount fixture using the LOK-TITE™ system – no other assembly is required. When mounted to the stand, the lower edge of the shooting surface is 34 inches off the floor.

- 1/2" AR500 steel back plate accommodates calibers up to 300 Win Mag rounds and .338 Lapua, 250 grain FMJ.
- 24 inch x 36 inch shooting surface.
- H-Stand base is 30-3/8"W x 30"D.
- Overall unit height of trap on stand is 70-1/4"H.
- Heavy-duty casters are optional.
- Trap weight on stand: 269 pounds
- Model SKU TP5024

Super Portable Tactical Trap

The Super Portable Tactical Trap provides a 36 inch wide x 48 inch high shooting area. The lower edge of the shooting surface is 19-½ inches off the floor. Constructed of ½ inch AR500 steel back plate with 2 inch wide ballistic steel edges and faced with 2" thick Dura-Panel™ ballistic rubber surface. The trap features dual LOK-TITE™ mounting brackets to allow it to be securely fastened to the sturdy two-post mounting stand. Lift handles on the back of the trap assist in positioning the trap onto the stand.

- 1/2" AR500 steel back plate accommodates calibers up to 300 Win Mag rounds and .338 Lapua, 250 grain FMJ.
- 36" x 48" shooting area.
- Stand base is 56" W x 30" D.
- Overall unit height of trap mounted on the stand is 68"H.
- Trap weight on stand 610 pounds.
- Model SKU# TP5038
