

Range Systems has been an industry-leading solution provider of live fire facilities since 1994. Our team has an extensive history of engineering, fabricating and installing superior performing range equipment worldwide. We have set the standard for range safety, unique capabilities and unmatched ballistic performance within our solutions.

At Range Systems, we understand that every project is unique and requires thoughtful planning and consideration. Through decades of experience our team is ready to work with you in selecting the right training furniture to meet your needs.

Product Overview

Designed to scale, each piece of our Shoot House Furniture replicates common household furnishings for placement in shoot house rooms. All of our training furniture is available as single components making it easy to customize your room layout.

Key Features & Benefits

- Heavy enough to stay in place, yet light enough for easy positioning or transport
- Weather proof so it will not mold, rot or retain water
- Fabricated from material that has self-healing properties, will withstand multiple impacts with little or no damage and will not create bullet ricochet or fragmentation
