

Product Overview

In Law Enforcement ranges with fixed targetry, moveable dividers allow you to advance downrange safely while providing shooting stall protection at any point within the firing range.

Range Systems Mobile Shooting Stalls offer all the amenities of our premium stalls, while on casters, to provide tactical mobility.

Key Features and Benefits

- Constructed of 1/4-inch AR500 steel plate and 2-inch thick Dura-Panel™ anti-ricochet ballistic rubber panels adhered directly to both sides of the steel
- Minimizes side blast interference from adjacent shooting lanes and reduces the hazard of misdirected shots
- Complete with shooting shelf
- Provides tactical mobility
- Heavy duty casters allow easy movement and locking placement in stalls

Range Systems will custom design the Mobile Shooting Stall to your specific requirements. Some options include:

- Brass guards
- Blast shields
- Barricades
- Bench options with lower storage shelves
