

## Product Overview

The Pro-RCS is the latest addition to Range Systems' respected target controller lineup, compatible with models such as the Pro-Sniper, Pro-Sniper HD, Pro-SIT, Pro-Runner, and Pro-Turn. It offers a range up to 600 meters, with an optional upgrade that reaches 2000 meters. This controller features four operational modes and can manage up to 200 individual target units at once. The Pro-Range Control package comes complete with a laptop (available in various configurations) and a transmitter.

## Features and Benefits

- Controls up to 200 targets simultaneously
- Transmitter and laptop offers rechargeable lithium battery
- 600 meter range with standard transmitter or an optional 2000 meter transmitter
- Stores complete courses of fire locally
- Multiple laptop options available
