

Product Overview

Range Systems lane dividers organize the firing lane into defined shooting positions, provide a location for mounting local target controls and offer protection from adjacent shooting positions. The proper lane dividers for your range can dramatically improve the perception and reality of the safety and quality of the range.

The Pro-Tacts™ Diamond takes the proven Pro-Tacts design to a new level of visual appeal and customization. Constructed with AR500 steel plate, ballistic rubber, and a variety of finish options, this divider offers a high-end look without compromising safety.
