Pro-Control Course of Fire Quick Start Guide (YD5046)

BEFORE YOU BEGIN: A range must be created and paired with the target system before creating a Course of Fire. Ranges can only be created while logged in as an Admin. If a range has not been created, an Admin must log in and complete the range setup before proceeding. For complete setup, operation, and software instructions, please refer to the Pro-MRC with Pro-Control Software Manual, Part Number YD5044.

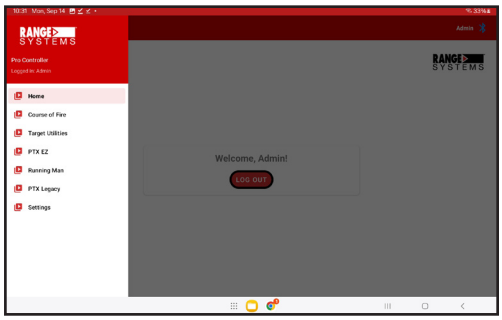

1. LOG IN

Open Pro-Control and log in using an Admin or Standard User account.

2. OPEN COURSE OF FIRE

Tap the **Menu** icon in the upper-left corner and select **Course of Fire**.

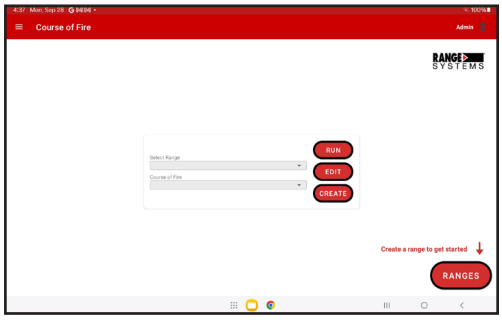

3. CREATE A NEW COURSE

1. Tap **Create** and enter a name for the Course of Fire.
2. Select the range where the Course of Fire will be used.

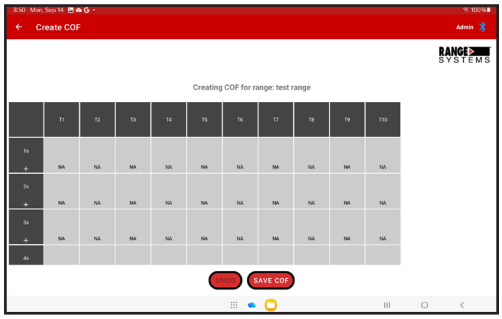

4. BUILD THE COURSE OF FIRE

1. Tap the cell for the desired target and second.
2. Select the action the target should perform at that point in the Course of Fire.
3. Repeat for any other targets that require an action during that second.
4. Continue adding actions until the sequence is complete.

NA (No Action) indicates that no new command is sent to that target during that second.

Example: If Target 1 is Friend at 1 second then turn Foe at 4 seconds, select the Friend action at 1 second and the Foe action at 4 seconds. The seconds in between remain NA.

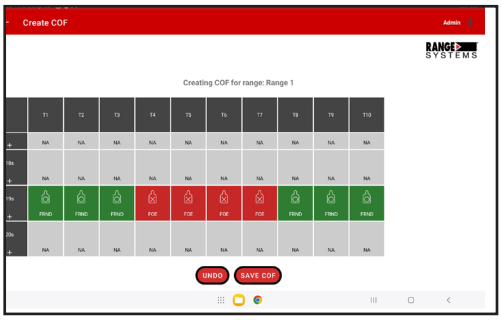

Pro-Control Course of Fire Quick Start Guide

5. REVIEW THE SEQUENCE

Review the completed sequence and confirm that each command is in the correct order.

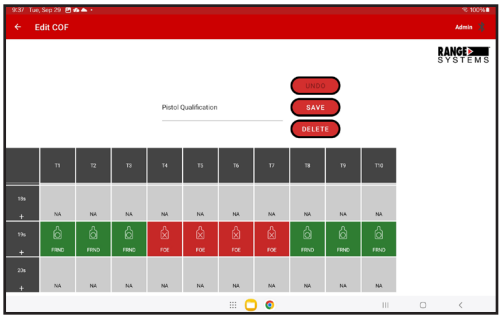

Edit or remove commands as needed.

6. SAVE

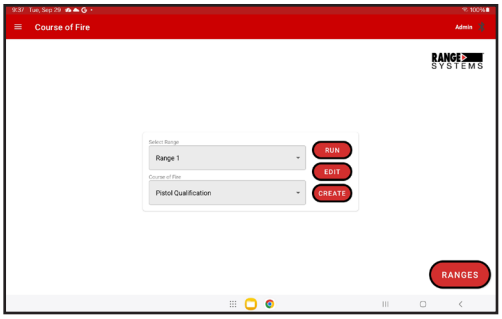

Tap **Save** when the Course of Fire is complete.

The Course of Fire is now saved and available for future training sessions.

7. RUN THE COURSE OF FIRE

1. Verify that the Bluetooth icon in the upper-right corner is blue, indicating that the Controller Transmitter is connected.
2. Select the saved Range and Course of Fire
3. Confirm the range is clear. When ready to begin, tap ▶ button.

SAFETY: Always confirm the range is clear and all established range safety procedures are being followed before starting a Course of Fire.
